File No. NDC/DARB/DE-22/2026-2027/ M-461

Dated 18 May, 2026

To

1. The Principal of all the dental institutions in the country
2. All concerned Universities

Sub: Installation of Rooftop Solar Plants in College Campuses – Reg.

Sir/Madam,

In line with the vision and ongoing efforts of the Hon'ble Prime Minister towards promotion of clean and renewable energy and reduction in dependence on conventional fuel, all dental institutions are requested to explore installation of rooftop solar power plants in their campus premises since most of the institutions have suitable rooftop space on academic buildings, hostels, libraries, laboratories, and parking areas which can be utilized for solar energy generation. It will also help the institution in reducing electricity expenses, minimize diesel generator usage, and contribute towards environmental sustainability.

Accordingly, all institutions are requested to-

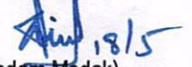

1. Assess available rooftop space and electricity consumption.
2. Prepare a feasibility plan for installation of rooftop solar plants.
3. Explore Government subsidy schemes and net-metering facilities available in the State/UT.
4. Consider phased implementation wherever feasible.

The Institutions which implement the above rooftop solar initiatives and adopt sustainable energy practices may be considered for suitable recognition/weightage under institutional assessment and ranking parameters, wherever applicable.

With the above, all the dental institutions are requested to take necessary action at the earliest and promote clean energy adoption within campuses.

Your cooperation and active participation in this important national initiative are highly appreciated.

Yours faithfully,

(Arindam Modak)
Secretary
National Dental Commission
